Social distancing

Graphic solutions

Solutions for social distancing

With 3M products, you are choosing the quality and expertise of a renowned, global brand. Trust 3M experience and be sure that when you use or install our solutions, they will deliver on their claimed results and provide the appropriate standard.

The global pandemic of COVID-19 has brought the concept of social distancing into all of our lives. Over the coming months everything from shops and restaurants to factories and offices will be required to introduce new measures to prevent the spread of the virus and maintain safety for customers and workers.

The big challenge for businesses is adapting the layout and design of their premises to help people maintain the required distance and stay up-to-date with the latest information.

3M has many years of experience working with businesses to create best fitting film solutions to produce durable graphics and signage. Our extensive range of floor, window and wall graphic vinyls can give your customers the simple visual markers they need to maintain the required distance at all stages of their visit. We can also help improve your everyday facility cleaning needs with top quality and effective solutions.

Solutions for public transport

Make a greener choice by using PVC-free graphics with 3M™ Envision™ Print Film 48C or 3M™ Envision™ Print Wrap Film 480mC. Ideal for reinforcing social distancing messages applied on walls or seats, these films offer a good long-term solution which suits difficult surfaces and substrates.

Please note that all icons are indicative only.
Check local legal requirements before use.

Solutions for retail

Help your customers find their way by ensuring the area is clearly marked for everyday shopping safety.

3M™ Envision Print Film 48C-20R is the non-PVC solution for custom wall decals, easy to apply and remove. Use with 3M™ Scotchgard™ Graphic and Surface Protection Film 8995 to provide anti-scratch performance and resistance to chemicals.

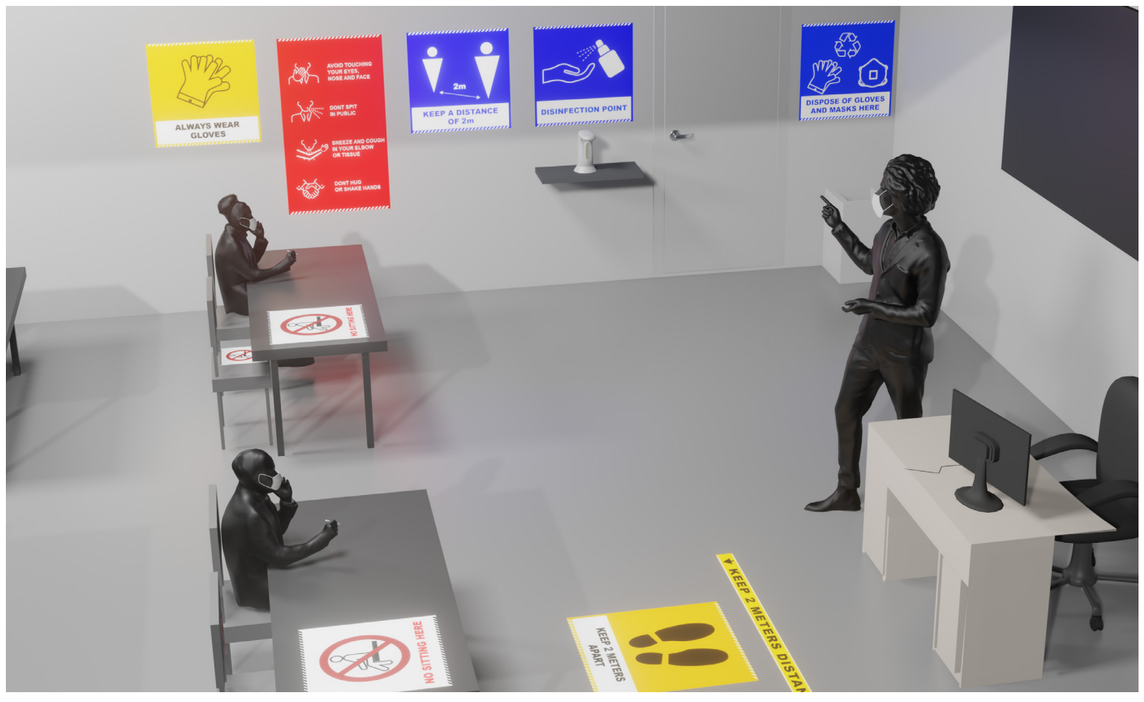

Create transparent short-term to long term signage or decals for your windows with 3M™ Clear View IJ8150. Provide your customers with information to help communicate social-distancing or any other message. Our film offers optical clarity and has excellent printability so your message stands out.

Provide everyday safety with personal distancing messaging for staff and students.

Our interior floor graphic solutions are ideal for creating directional or informational floor graphics to communicate with employees and customers through messaging or reminders during the COVID-19 outbreak. These solutions are easy to apply, durable and easy to clean. They're also fire certified.

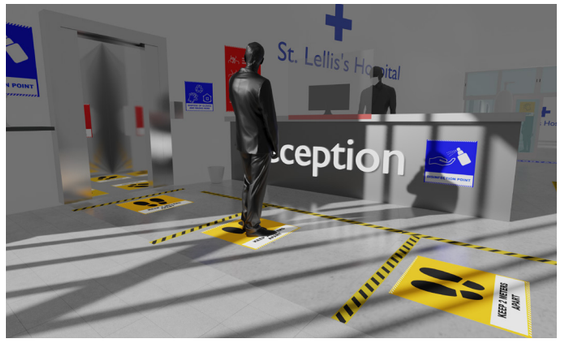

Use 3M™ Scotchcal™ Graphic Film IJ40-10R White Gloss Removable together with the 3M™ Scotchcal™ Luster Overlaminate 3645 for excellent skid and cleaning agents resistance while maintaining an outstanding color stability and long lasting durability. It's easy to apply and remove from various surfaces.

Please note that all icons are indicative only.
Check local legal requirements before use.

Solutions for healthcare

3M™ Films are ideal for temporary signs or decals for interior wall applications as they provide good printability and are easy to install and remove. Ideal for short term directional or social distancing signage, these films make communications eye-catching and simple to apply.

3M™ Safety-Walk™ Slip-Resistant 600 tapes are designed to be applied on the floor for clear demarcation of checkouts and other busy areas. These tapes offer excellent colour stability and long-lasting durability in heavy traffic applications. They also feature a high friction slip and resistance to cleaning agents.

Please note that all icons are indicative only.
Check local legal requirements before use.

Solutions for hospitality

Our interior graphic solutions enable customers to create directional or informational floor graphics and wall decals to help communicate desired messaging or reminders during the COVID-19 outbreak. You can create everything from large signs to small floor decals and markings. Our solutions are easy to apply, durable and easy to clean. They're also fire certified.

Please note that all icons are indicative only.
Check local legal requirements before use.

Solutions for manufacturing

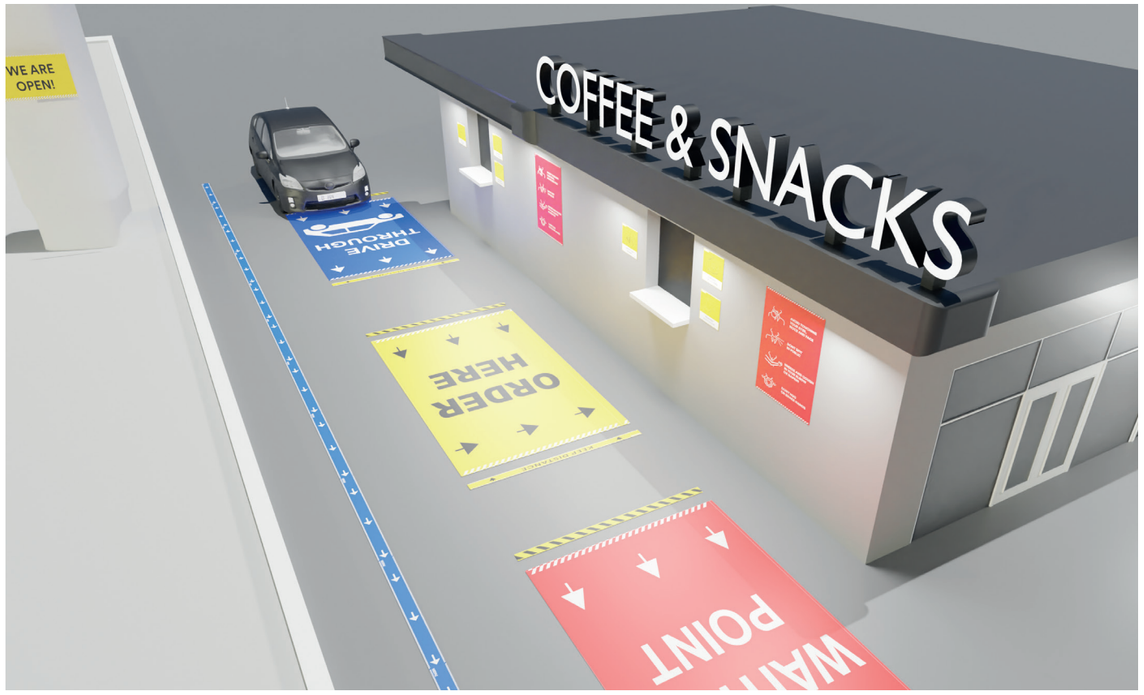

Use our floor marking solutions to create clear lines of demarcation around checkouts and other areas where people need to maintain social distancing whilst queuing. These durable tapes are designed to be applied on the floor and have a high skid resistance based on area requirements, making them suitable for heavy traffic areas. Available in a versatile range which includes options for both short and long-term application.

Solutions for fleet

3M can support you in differentiating your vehicle and communicating the right message to those who see it. 3M products can be removed cleanly from most surfaces to help restore the look of your vehicle when the communication is no longer required. We also offer the option of using removable reflective graphic film that can enhance the safety of the vehicle while making the message conspicuous and visible in the night. Different films are available to ensure that every type of surface such as flat, rivets and corrugated surfaces can be applied on.
